

CAMERON

BREAKING NEW GROUND

Landscape Architect:

An exciting opportunity has opened for an experienced, self-motivated, Landscape Architect who is looking to further their career and join our passionate team.

Based in Notting Hill, Cameron specialises in designing, building and maintaining top-end private and commercial outside spaces, countrywide and internationally; we are recognised for creating bespoke, dynamic and immersive spaces which deliver on beauty and functionality. Our team combine both tried and tested design methods with innovation to help push boundaries and break new ground, we aim to collaborate with our clients and remain close to nature.

As part of the company's development, we are looking to recruit a full-time, proactive Landscape Architect to work closely with Directors to produce designs of gardens and outdoor spaces to an excellent standard. The successful candidate will need very strong Autocad/VWX, graphical, written and verbal communication skills, a good understanding of construction, be detailed orientated and be both self-motivated and a team player.

Role and responsibilities:

- Work with Senior design team on a range of projects, including large scale commercial and high-end domestic schemes.
- Lead multi-disciplinary projects from start to finish with support of the Associate Design Director
- Build strong relationships with clients and prospective clients.
- Translate design briefs into rationalised concepts.
- Produce technical drawings, schedules, and specifications and review implementation on site
- Attend site/client meetings, record and action minutes.
- Source materials and manage supplier relations.
- General office administration. Including managing studio resources through accurate timesheets.
- Ensure CDM 15 regulations are adhered to.

The successful candidate will:

- Have a Degree in Landscape Architecture with at least 5 years relevant experience.
- Be highly creative and proactive, with excellent communication skills.
- Have an excellent knowledge of 2D and 3D VWX/Autocad; a good understanding of Excel
- Have experience working on multi-disciplinary design teams, particularly commercial, complex urban projects, with the ability to effectively manage project information sharing.
- Have an interest in developing plant knowledge
- Be very organised, able to structure their own workload and be punctual.
- Have a good understanding of hard landscaping and construction detailing.
- Have some experience working on domestic landscape projects.
- An ability to produce high quality visuals - Photoshop, 3D render software
- Enjoy working in a fast moving, dynamic and professional atmosphere.
